

TEJAS MAHESH SABBANI

Bhiwandi, Thane 421302, Maharashtra, India | +91 8600267939 | tejassabbani20@gmail.com

PROFESSIONAL SUMMARY

Bachelor of Engineering graduate in Artificial Intelligence and Data Science (May 2026) with hands-on industry experience as a Java Developer Intern, contributing to a live enterprise project for Mahindra & Mahindra. Proficient in Java, Python, C/C++, and SQL, with practical exposure to API development, database integration, and machine learning through academic and internship projects. Strong foundation in problem-solving, teamwork, and adaptability, with a proven ability to collaborate effectively in production-level software environments. Seeking to apply technical expertise and analytical skills to deliver impactful solutions in a software engineering or data-driven engineering role.

SKILLS

Programming Languages: Python, Java, C, C++

Web Development: HTML, CSS, JavaScript

Database Management: SQL, MySQL

Machine Learning & AI: Generative AI, Predictive Modeling, Data Analysis, Recommendation Systems

Tools & Practices: Maven, API Development, Debugging & Testing, SDLC

Core Competencies: Teamwork & Collaboration, Adaptability, Problem-Solving, Decision-Making

Cloud Platform: Microsoft AZURE, AWS

PROFESSIONAL EXPERIENCE

Java Developer Intern Aug 2025 – Feb 2026 *Digital Crown IT System*

- Contributed to a live enterprise-level software project for **Mahindra & Mahindra**, working alongside industry mentors to deliver backend solutions.
- Developed and supported Java-based backend components, applying standard software development practices to ensure code quality and reliability.
- Built hands-on expertise in Java, MySQL, and API development through real-world production environment exposure.
- Collaborated with mentors and team members to translate project requirements into functional solutions and resolve technical issues.
- Applied industry-standard workflows for debugging, testing, and database integration to support reliable, high quality project delivery.

PROJECTS

Credit Card Fraud Detection System (Python)

- Developed a supervised machine learning model for detecting fraudulent credit card transactions using transaction-level features.
- Performed data preprocessing, feature scaling, and class imbalance handling to improve model performance.
- Evaluated the model using Accuracy, Precision, Recall, F1-Score, and ROC-AUC metrics.
- Technologies:** Python, Scikit-learn, Pandas, NumPy, Matplotlib

Arduino-Based Radar System

- Designed and implemented a real-time object detection system using Arduino UNO, HC-SR04 ultrasonic sensor, and servo motor.
- Acquired sensor data through serial communication and mapped object distance with angular positioning.
- Optimized scanning logic to improve detection stability and response time.
- Technologies:** Arduino UNO, Embedded C/C++, HC-SR04, Servo Motor

Advanced Cross-Domain Recommendation System

- Developed a hybrid recommendation engine leveraging collaborative and content-based filtering techniques.
- Performed feature extraction and similarity computation to generate personalized recommendations across multiple domains.
- Processed user interaction data and optimized recommendation relevance using machine learning techniques.
- Technologies:** Python, Scikit-learn, Pandas, NumPy

AI-Powered Code Review Assistant

- AI-Powered Code Review Assistant
- Developed an AI-driven code review assistant to analyze source code for syntax quality, maintainability, and coding standard compliance.

- Integrated LLM-based code analysis to generate contextual suggestions for readability, refactoring, and best practices.
- Implemented automated code parsing and validation to identify potential issues and improve code quality.
- **Technologies:** Python, Generative AI, Azure OpenAI, HTML, CSS, JavaScript

EDUCATION

Bachelor of Engineering – Artificial Intelligence and Data Science May 2026

Datta Meghe College of Engineering, Airoli, Navi Mumbai

Result: 6.26 CGPA

HSC (Higher Secondary Certificate) – The Scholars Junior College, Bhiwandi May 2022

Result: 86%

SSC (Secondary School Certificate) – N.E.S. High School, Bhiwandi May 2020

Result: 80%

LEADERSHIP & ACTIVITIES

- Served as a member of the organizing committee for Techfest 2023 at Datta Meghe College of Engineering, a technical festival attended by approximately 800 students.
- Collaborated with the sponsorship team to engage potential sponsors and secure funding, supporting the successful execution of college events.

ACHIEVEMENTS

- Runner-Up, Kabaddi Tournament (2023, 2024) – Datta Meghe College of Engineering
- Semi-Finalist, Cricket Tournament (2024) – Datta Meghe College of Engineering

LANGUAGES

English, Telugu, Hindi, Marathi
